

## FULLY Identified the Body of Bartholin.

## His Own Hand or Third Time Held Deadly Weapon

## Which had Already Killed a Sweetheart and an Aged Mother.

## Arrested by Relentless Officers and Unable to Escape, the Murderer Took His Own Worth- less Life.

Chicago, Sept. 8.—Chief of Police Callahan says there is no doubt as to the identification of the body found in a field in Iowa as that of William Bartholin. The dentist that was taken to the hospital with Detective Rohan, and has been identified by his work on the teeth, was found in the coat pocket of the body. Two of these missives are dated in Chicago during the summer. The confession was written on a paper and dated Aug. 31, the day on which Bartholin is believed to have killed himself. It is as follows: "To Whom It May Concern: I want you to know that I am the Bartholin the police are looking for. Also wish to certify the assistance of any kind from me. Thompson, Claff and Cunningham are all as innocent as an unborn child and should be freed at once. I cannot go into details in regard to my crime. They were not planned, and I did not know I could do. My mind was wandering. Such a drop in the bucket short a time. Two months traveling in the best of company, leaving the life of a hobo—a hobo."

Bartholin's body was found last Friday about six miles from Riceville by a party of Riceville. Pratt was going to Lima, and when passing a field saw the body lying against a tree. Thinking it was a corpse, he paid no attention at the time, but on returning he found the body there, and upon investigation discovered that he was dead. A man was lying near his left hand, and T. S. Carpenter was notified the body was removed to an undertaking establishment at Riceville. J. B. Cook, editor of a Riceville paper, discovered that the dead man bore a striking resemblance to the pictures of the Chicago News. It transpires that Bartholin was a Riceville Aug. 6, before the bodies of his victims, Mrs. Bartholin, his mother, and Miss Mitchell, sweetheart, were discovered. Bartholin was a contractor doing work here for the Great Western road, advertised in Chicago for work on Aug. 5, offering free transportation to the place of work. Those who responded were Bartholin, George Edwards. After reaching Lima, he worked with the construction for half a day, and then went to work with a threshing machine and a harvest field. Over a week he left Riceville and went in direction of the place where his body was found. That was the last of him here.

## Strikers Mistake Two of Their Own Men for Non Unionists.

## Were Looking for the Sheriff.

## A Challenge Given is Not Answered and the Strikers' Pickets Open Fire Killing One and Fatally Wounding Another.

Wilkes Barre, Sept. 8.—Two men yet unidentified, but who were supposed to be non-union by the strikers' pickets at the Maltby mine, were shot down by strikers this morning. One was killed and the other was fatally wounded. The strikers' pickets saw them going toward the mine and fired shots to frighten the couple, but they moved on. Then the pickets fired in earnest and the strikers found they had shot two men of their own number, whom they had mistaken in the fog for non-unionists. The names of the victims are unknown. Officers are now after the shooters who fled to the woods. One victim had 30 bullet wounds, the other eight.

**The Men Identified.**  
Wilkes Barre, Sept. 8.—The men shot by the mob were Jno. Kesta, dead, and Frank Patrick, dying. Both men were in good standing with the miners union. The strikers supposed they were attacking the advance guard of the sheriff's posse which came later and is now at the mine.

**Situation is Serious.**  
Wilkes Barre, Sept. 8.—The sheriff and deputies are now on guard at the Maltby colliery and a crowd of 1,000 miners, mostly foreigners, gathered along the road threatening to attack. The telephone wires to the colliery have been cut and there is no communication with it now. All night the guards at the colliery were fired on.

Washington, D. C., Sept. 8.—It is stated that no international complications will arise from the striking of Haitian revolutionary gun boat, by a German gunboat. In fact, Germany has probably saved the United States the unpleasant task of itself destroying the Crete. ## By the Letting Go of the Powder Magazine at Fort Winthrop.

## Fires Kindled by Small Boys on Governor's Island is Supposed to Have Caused the Explosion.

Boston, Sept. 8.—One of the powder magazines at Old Fort Winthrop, on Governor's Island, blew up with a detonation that was heard at points 20 miles away. The explosion is supposed to have been caused by boys setting fires on the island. One dead man and five injured were brought to the city by the police boat, and while it is believed that is the extent of the casualties, it is possible that others may be found suffering from the force of the concussion. The dead man's name is known by him. The injured are James A. Crowley, Christian Knudsen, Charles Flanagan, Dennis J. Swanson and Paul Barry, all having flesh wounds besides suffering from the shock.

There are several old ramshackle structures at the south end of the island which are visible above ground, some of the granite blocks being of immense size. The force of the explosion is shown by the fact that some of these great blocks were hurled several hundred yards away, while one of the largest was sent into the air and came down through the citadel in the center of the fort, making a hole large enough to drive a team of horses through. All over the island the effects of the explosion are visible, while in East Boston, South Boston and in the city proper the concussion was plainly evident in windows and skylights being broken.

## Otis Elevator Company Seems to be Doing a Big Business.

New York, Sept. 8.—At a special meeting today of the stockholders of the Otis Elevator company favorable action was taken on the proposition to increase the preferred stock by \$2,000,000. Of this authorized increase \$1,000,000 will be issued at once and offered to both the common and preferred stockholders at par to the extent of 10 per cent of their holdings. The remainder will be left in the treasury to be issued only as the necessities of the company require. The past twelve months are stated to be the most prosperous in the history of the company and the continuous expansion of the company's business is given as the reason for the increase in stock.

## Brotherhood of Locomotive Firemen Open a Well Attended Biennial Convention Today in Chattanooga, Tennessee.

Chattanooga, Tenn., Sept. 8.—Chattanooga paid its respects to President Roosevelt today and the presence of 10,000 visitors from many parts of the state helped to make the occasion a memorable one. The president came to attend the biennial convention of the Brotherhood of Locomotive Firemen and his address was the feature of the opening session. The presidential party was escorted to the convention hall by the 7th cavalry and detachments of the local military companies. The route was lined with spectators who waved hats and handkerchiefs and kept up a continuous volley of cheers. Arriving at the hall the distinguished visitor found it packed from floor to ceiling, hundreds of visitors being present in addition to the 500 or more delegates to the convention and their ladies. Occupying seats on the platform were the officers of the Brotherhood of Locomotive Firemen, the mayor and other officials of the city of Chattanooga and a number of other persons of prominence. After prayer and music the president was introduced to the assembly by grand master E. P. Sargent. The president was greeted with enthusiastic cheers when he arose to make his address. The address was devoted largely to a eulogy of the conservative labor organizations and to a review of industrial questions. The president also paid a high compliment to Grand Master Sargent and concluded his remarks by thanking the people of Chattanooga for their cordial reception on the occasion of this, his first visit. Considerable work of importance lies before the convention. The address of President Roosevelt excluded all other business for the day and the real work of the convention will not be taken up until tomorrow. A number of changes in the constitution and in the beneficiary will be considered. An interesting contest for the successor to Grand Master E. P. Sargent is expected. It is understood the contest will be between Grand Secretary Arnold and Acting Grand Master J. J. Hannahan.

## ALL EYES ON MAINE.

## Battle at the Polls Today is of More Than Local Importance.

Bangor, Me., Sept. 8.—The eyes of the nation are on Maine. The result of the election in this state today will be significant. It is the straw that will tell which way the political wind is blowing. If the Republican majority should be light the Democrats of the country will consider it an omen of good, while, on the other hand, should the majority be heavy, the country will take it as an indication that the people are satisfied with the national administration. The Republicans declare that Governor Hill will be re-elected by the largest majority ever polled in the state. The close of the campaign came Saturday with political gatherings in nearly every city and town in the state. This year the canvass has been unusually vigorous, particularly on the part of the Democrats. The work of arousing the voters began nearly a month ago and there has been much of the old-time enthusiasm and fireworks. The Democrats entertain hope of electing a congressman. The district wherein they locate the possibility is the one once represented by Mr. Reed, and now represented by Amos L. Allen, who for several years was Speaker Reed's private secretary.

## EXCEEDS Anything of the Kind Ever Attempted.

## New York State Fair This Year Will be a Sure Winner Over Past Years.

Syracuse, N. Y., Sept. 8.—The new York state fair, which opened today, eclipses all former exhibitions of the kind in this state, both in the number and variety of the exhibits. There is no department of the fair that is not well filled with choice displays that show the recent progress made in all branches of industrial activity. Of particular note this year are the cattle and agricultural exhibits and the new buildings devoted to these departments help greatly to increase the attractiveness. The facing program will be inaugurated tomorrow and judging from the present outlook the meeting will be a highly successful one. There will be three races each day and to the winners will be given purses aggregating \$25,000.

## He Reviews the Troops on Sunday, After Expressing His Dis- approval of the Custom of the Sunday Parades.

Chattanooga, Sept. 8.—The arrival of President Roosevelt in this city was the occasion of a royal entertainment by the citizens, although he came to attend the national convention of the Brotherhood of Locomotive Firemen. He was driven from one scene to another during the day, and the details of the famous battles about the city were explained to him by men who were participants in the conflicts. The battlefields of Missionary Ridge, Chickamauga, Lookout Mountain and Orchard Knob were driven over.

The presidential train arrived here promptly. There was a large crowd at the station, and the president was accorded a hearty welcome. A committee composed of Governor McMillin, Mayor A. W. Chambliss, Congressman John A. Moore, General H. V. Boynton, General A. P. Stewart and Captain J. F. Smart, members of the Chickamauga park commission, General A. W. Wythe and Captain J. F. Shippen, entered the carriage and welcomed him to the city. The cars were in waiting, and after formal greetings the start for the Chickamauga battlefield was made. At the entrance to Chickamauga park the Seventh United States cavalry, under command of Colonel Baldwin, which acted as the president's escort, was drawn up. The president, with General Boynton, president of the park commission, mounted horses, and after the other members of the party had entered carriages the drive through the park began. The cavalcade was hardly under way before the president started his horse at a sharp trot, and for a mile and a half led the regiment a merry chase over the battlefield. The pace was so hot that several of the troopers were unhorsed, and it was necessary to call the ambulance corps into service.

After inspecting a portion of the field the president stopped at the camp and reviewed the regiment, together with the Third battery of field artillery, under command of Captain Miles. At the conclusion of the review the Seventh cavalry went through their new calisthenics drill. The troopers were dismounted, and to the accompaniment of the band performed their evolutions. The president was at first disinclined to witness a drill on Sunday, but upon its being represented to him that the men were particularly anxious that he should see the drill, and as this was the only opportunity he would have to do so, he consented. Luncheon was served soon afterward, and then divine services, which the president attended, were held on the park grounds.

One of the incidents of the day which pleased the president very much was the meeting of three members of his old command, who served with him in Cuba. They were Lieutenants Cartwright and Palmer of the Seventh cavalry, both serving with him as privates, and Mr. Crocker of Georgia, who was with the president at San Juan.

The president addressed the convention of the Brotherhood of Locomotive Firemen and also the citizens of Chattanooga from a stand erected near the courthouse, after which he left for Knoxville.

## Have Something to Say About the Nash Code.

Columbus, Sept. 8.—Twenty-five members of Ohio medical societies appeared before the code committee this morning and recommended that the health departments be put in charge of independent boards of health, rather than as in the Nash plan which puts them under the board of public service. They also want civil service rules to apply to subordinate and health department.

## MANY GOOD WELLS

Added to the Northwestern Ohio Field During the Past Week.

As Usual Richland Township Has a Good Share of Allen County's Production---News of Other Recent Developments.

The past week has placed some splendid wells to the credit of the Northwestern Ohio field with many others that are naturally in the class of less profitable ones.

Two 50-barrelers have been completed in the Richland township pool of Allen county, the Planet Oil Co. No. 1 on the L. Hochstetter farm, section 22, and the Columbia Petroleum Co. No. 3 on the Jas. Phillips tract, section 34. Both are reported as producing half a hundred barrels of oil in 24 hours after shot.

Over in Barb township one of the Lupton companies has completed a second well on the J. F. Weaver farm, section 24, which made 15 barrels the first day.

The Ohio Oil Co. No. 1 on the J. W. Foust farm, section 11, Marion township, has been drilled in and started producing at the rate of 35 barrels in 24 hours. The St. Marys (Ohio American Petroleum Company) has completed No. 4 on the J. W. Thompson farm, section 14, Marion, with a 20-barrel producer as the result.

In German township, section 3, Gilbert & Duff completed a test well on the S. C. Morton farm, which made 60 barrels the first day.

Two small wells are reported from Spencer township. Well & Johnson's No. 1 on the N. Ardner farm, section 13, making 25 barrels at the start, while R. J. Straight's No. 2, Peter Wagner, section 14, was good for 15 barrels.

### Van Wert County Wells.

McDonald, Ahrens & Odell have a fairly good well for the Ohio City field in their No. 3 on the A. Miller farm, section 27, Liberty, its production the first 24 hours having been 40 barrels. The same operators completed No. 4 on the W. I. Ayres farm, section 4, but got a duster. This was somewhat of a surprise, as the original A. Miller well was accounted one of the best in the field, and the territory thereabouts was thought to be good for at least small wells.

For H. H. Roberts & J. E. Fisher & Co. completed No. 2 on the W. N. Wilkins farm, but it is not in a class with the first wells drilled in this tract, its first day's output being only 15 barrels. Dr. A. Heering's No. 1 on the L. E. Snodder farm, section 31, Liberty, was of about the same caliber.

In Jennings township, the Cuba Petroleum Company's No. 5 on the D. W. Evans farm, section 18, was a fairly good well, making 55 barrels in 24 hours after shot, while in section 8 of the same township, Elliott & Co. drilled in No. 7 on the J. H. Morgan farm and got a duster.

The Vantage Oil Company's second well on the E. E. Chambers farm, section 33, Adams township, was light, making only 20 barrels in a day, and in section 24, R. G. Gillespie has one of still smaller dimensions, his No. 1 on the A. Longwell farm doing only 5 barrels in 24 hours.

The Ohio Oil Co. No. 7 on the John L. Evans farm, section 1, York township, has been completed and is very light its first day's gauge showing an output of only 2 barrels.

### Results in Hancock.

East of Mt. Cory, D. W. Beatty has completed a splendid well in his No. 4 on the Wm. Hanna farm, section 25, Union township, Hancock county, its first day's production being 75 barrels.

The Ohio Oil Co. has two smaller wells in the same neighborhood, No. 1 on the Anson Runkle farm, section 25, Union, doing 30 barrels, while No. 3, H. E. Gray, section 24, was good for 75 barrels.

The Kentucky & Ohio Oil & Refining Company's No. 11 on the M. A. Cox farm, section 11, Marion township, was a good producer making 90

barrels in 24 hours after shot. Wm. F. Jebb has two good ones on the Morrell heirs farm, section 3, No. 6, making 45 barrels and No. 7 doing 50 barrels in 24 hours.

The Cashdollar Oil Co.'s No. 3, on the R. W. Moore farm, section 7, Big Lick township, has been completed but is as yet pumping only salt water.

Two good wells have been completed in Allen township. Cook, Gaston & Co.'s No. 5 P. S. Showman, section 13, starting out at a 60-barrel rate, while the Ohio Oil Co.'s No. 24 George Alban, section 23, was good for 50 barrels the first day.

In Cass township, the Ohio Oil Co.'s No. 6, J. E. Hudson, section 15, was a 20-barrel producer.

### Wood County Work.

The late crop of wells in Wood county has developed but very few which might be called better than ordinary producers, the best of a large number of new ones being the Exchange Oil Co.'s No. 17 on the L. D. Lingmade farm, section 7, Portage township, which made 80 barrels the first 24 hours after shot. In section 24 of the same township, the test well drilled by Collins & Hutton Bros. on the E. Caskey farm, was good for 30 barrels at the start.

In Liberty township, the Ohio Oil company has completed three wells, none of which is a market-breaker. The best of the trio was No. 15 on the J. Walcott farm, section 23, which made 35 barrels the first day. No. 14 G. Otterbach, section 28, was good for 10 barrels, and No. 54 R. E. Mooney, section 26, made 5 barrels at the start.

In Plain township, the same company's No. 4 on the James Hughes farm, section 27, was a 50-barrel producer.

The Ohio Oil Co.'s test on the Joseph Rider farm, section 23, Middleport township, was a 20-barrel pump. No. 115 on the Fisher & Villavick lease, section 33, Freedom, made 15 barrels the first day, and No. 41 B. A. Lawrence, section 24, Henry, was very light, making only 2 barrels in 24 hours.

In Troy township, Hobart Powell & Co. completed No. 2 on the George Joseph farm, section 29, with a producer doing 18 barrels in 24 hours as the result. The well drilled by A. Stewart & Pope on the P. Stewart farm, in section 22, Webster township, was good for only 5 barrels.

### New Wells in Sandusky.

The Ohio Oil Co. has a good producer on the E. F. Lattig farm, in section 7 of Sandusky township, Sandusky county, its No. 8 well making 60 barrels the first 24 hours after shot.

In Washington township, the same company has completed No. 4 on the J. Wagner farm, section 1, with a 10-barrel producer as the result. The United Oil Co.'s No. 5 on the L. G. Long farm, section 18, was a 20-barrel producer, and Stow & Vleck's No. 17, D. Jakes, section 30, was good for 15 barrels the first 24 hours.

In Woodville township, the Ohio Oil Co. completed a 20-barrel well in its test on the F. Yeastings farm, section 1, and in section 27, Maunier Bros. & Clements got a 50-barrel well on their No. 1 on the A. Dunham farm.

J. J. Koen has abandoned work on his No. 3 well on the C. W. Shoemaker farm, in section 20 of Water-ville township, Lucas county.

Near Lovell, in section 6 of Crane township, Wyandot county, the Ohio Oil Co. has a good well in its No. 8 on the C. C. Chaffee farm, its production in 24 hours being 35 barrels without the assistance of a shot.

### Mercer County Wells.

The Ohio Oil Co. has completed a half dozen wells in the Black Creek township district of Mercer county, some of which are better than the ordinary run of producers, though none up to what has been the standard for big wells in that territory.

In section 19, No. 9 on the John Ship farm started at the rate of 12 barrels in 24 hours. No. 5 S. S. Wicks, same section, was a 25-barrel producer. No. 2, M. E. Mills, section 29, produced 30 barrels in 24 hours after shot. No. 3, Jacob Miller, section 30, was a 60-barrel producer. No. 3, A. Leister, section 31, was a 10-barrel well, and No. 1, Caroline Baker, section 42, made 30 barrels the first day.

The Rebecca Oil Co.'s No. 1 well on state lands, in section 11, Franklin township, has been completed but is pumping salt water.

## Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and crack, owes its existence to the presence of humors in the system.

It will continue to exist, annoy, and perhaps agonize, as long as these humors remain.

It is always radically and permanently cured by **Hood's Sarsaparilla** which expels all humors, and is positively unequalled for all cutaneous eruptions.

### EXCURSION TO MICHIGAN.

Low Rate For Outings at Mackinac, Petoskey and Traverse City.

A special excursion to northern Michigan resorts will be run via Pennsylvania lines Thursday, Sept. 11th. The round trip rate from Lima to either Petoskey or Traverse City will be \$6.00, and \$7.00 to Mackinac Island. Excursion tickets will be good ten days including date of sale. Proportionately low rates from other ticket stations on the Ft. Wayne route between Alliance and Ft. Wayne. For particulars apply to local ticket agents of the Pennsylvania lines.

## RACE HORSES

Injured in a Collision at Van Wert.

A string of race horses in a car on a Pennsylvania siding at Van Wert, was badly shaken up and two of them severely injured, Saturday morning, by a locomotive running into the car. The force of the collision was so great that Ben H., a 2:20 class pacer, owned by Dr. D. D. Clark, of Decatur, Ind., was knocked out of the car and was out in two places on the hind leg, one hoof split and his body bruised. In some manner both hind shoes were jerked off. The horse ran onto north Jefferson street and fell to the ground, being overcome by fright.

Lady Montrose, a runner, suffered an injury to her spine. Billy W., a thirty-four class trotter, was bruised by being thrown against the sides of the car. The animals had been loaded for shipment to Sidney. Ben H. is being treated at the stable of Fronseld & Sheridan.—Van Wert Bulletin.

### A LASTING EFFECT.

This Evidence Should Prove Every Claim Made for Doan's Kidney Pills in Lima.

Relief from the pains and aches of a bad back is always welcome to every backache sufferer, but to cure a lame, weak or aching back is what's wanted. Cure it so it will stay cured. It can be done. Here's the strongest evidence to prove it.

Mr. P. Van Pelt, shoe maker, of 121 south Union street, says: "I told the gentleman who called upon me early in the summer of 1896 that I had procured Doan's Kidney Pills at W. M. Melville's drug store and that their use had radically disposed of pain across the back and the muscles toward the shoulder blades. A constant aching of the loins was very depressing and when freed from the anxiety I was only too pleased to make known, the means employed. It is now more than two years since I first publicly expressed my opinion of Doan's Kidney Pills and emphatically declare that the same opinion is stronger today touching their merits than it was when I gave it for publication."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no substitute.

### FIRST MEETING.

The Woman's Auxiliary of the Y. M. C. A. will hold their first meeting for this season tomorrow afternoon at three o'clock. A full attendance is desired as there is business of importance. Mrs. M. S. Thompson, President.

## Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and kills the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spread over the membrane and is absorbed. Relief is instantaneous and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at drug stores.

## SERIOUS

Condition of a Patient at the Hospital.

John Foust, living about one mile south of Scotts Crossing, received a serious injury Thursday morning. He was in the act of getting out of bed when he accidentally fell and ruptured a blood vessel in the urethral canal. Dr. Weger was called and after an examination it was found that Mr. Foust was in a serious condition and Dr. Huntley, of Lima, was summoned. After the two physicians consulted over the case, it was decided to remove the patient to the Lima hospital. An ambulance was telephoned for and Mr. Foust was taken to Lima where it was necessary to perform an operation. Reports from Lima state that the patient is getting along as well as can be expected, although not out of danger.—Delphos Herald.

## The Retort Soft Coal Stove

The only stove in the market that burns coal in a magazine with perfect satisfaction; it does not clog. It cooks the coal before consuming it. 75 per cent of the soot and smoke are consumed. The ashes are so few that you only empty your ash pan twice a week. Your fire is never out, unless you want to let it go out.

Twenty years of universal satisfaction is the record behind The Retort Stove. We are booking orders fast. We can only supply what we have contracted for, as the capacity of the factory is all sold for this season.

OVER HALF A CAR LOAD ALREADY SOLD this season. Don't miss getting one. We have all kinds of stoves, for every kind of fuel. THE GARLAND HARD COAL BASE BURNER has stood as the finest of stoves for many years.

THE GARLAND OAK, for wood or soft coal, cannot be beaten for an all round general purpose stove.

THE GARLAND HOT BLAST is the finest of this class of stoves. Keeps fire all night, works like a charm, and of course is cheaper than THE RETORT. There is no stove for the price that is its equal for soft coal.

We are not novices in the stove trade. Our experience dates back to 1871, and we have made it a study. Our line of stoves stands at the top of the heap. We sell them from choice. We could buy cheap and sell as profit to sell the best, even if we do have to put a little more money for them. It is the honor to look over our line and we'll take the chances on the rest of it. You might need an Old Heater for cool nights and mornings. Don't fail to see ours at \$4.50, \$6.00, \$7.00, and \$8.00.

### G. A. R. TO WASHINGTON.

The C. H. & D. has arranged with the Mart Armstrong Post at Lima for special train of elegant coaches and sleepers to go through without change from Lima to Washington, D. C. on account of the G. A. R. meeting. The posts from neighboring towns have been invited, and many have accepted to join them.

Sleeping car reservation can be made by calling upon Mr. F. A. Burkhardt, agent, C. H. & D. R'y, and the rate is \$3.50 for the double berth which can be occupied by two persons.

Remember the coaches and sleepers are to go through without change. Apply early that you may secure good accommodations.

## WIFE INTERFERED.

Prevented a Murder After Her Husband Had Been Shot.

Toledo, Sept. 8.—A wife's interference prevented Louis Quinn from being shot to death at Whitmore by his brother-in-law, E. G. Dills. The former entered the latter's store and accused Dills of writing a communication against his candidacy for auditor of Sandusky county. A quarrel ensued and Dills shot Quinn in the head. The latter's wife then stepped between the men and prevented further shooting. Quinn may die, and Dills is under arrest.

Central Telephone Company. Cleveland, Sept. 8.—It was authoritatively announced that the stockholders of the Central Telephone company would receive at least 70 per cent of their original investment in the company when the liquidation of the company is completed. But 30 per cent of the stock was held outside the Everett-Moore syndicate. Already seven of the constituent companies have been disposed of, namely, those at Dayton, Mansfield, Gailton, Shelby, Portsmouth and Willoughby, O., and Jackson, Mich. Those netted approximately \$400,000. Some of the remaining companies, it is expected, will be disposed of this week.

### Accidentally Killed.

Toledo, Sept. 8.—While Wade Farrel was showing a revolver to James Moran, a Lake Shore detective, the weapon was accidentally discharged, the bullet piercing Moran's stomach. He died a few hours later.

### Death of an Ex-Senator.

New York, Sept. 8.—William Nathaniel Roach, who was United States senator from North Dakota from 1893 to 1899, died here. He had been ill from cancer almost from his coming to this city, where he had made his home after retiring from the senate. Under special treatment here he progressed favorably, and about a month ago it was announced that he was out of danger. He suffered a relapse, however, and died after having been confined to his bed for 10 months.

### Bloody Fight.

Durant, I. T., Sept. 8.—A bloody battle was fought about 10 miles east of here between Roy W. P. Whaley and his two sons, Alf and Ernest, on one side, and J. H. and J. A. Richardson and their brother-in-law, Mr. Wilton Berger, on the other. In which the older Whaley was killed and Alf, his son, had both arms shot to pieces and J. A. Richardson received a severe flesh wound in the thigh.

### To Stop the Fight.

Louisville, Sept. 8.—All the Louisville ministers announced to their congregations that a mass meeting would be held this week to take action looking to the prevention of the fight between McGovern and Young Corbett scheduled for Sept. 22. At this meeting a petition will be drawn up for presentation to Governor Beckham asking him to stop the fight.

### General Williamson.

Newport, R. I., Sept. 8.—General J. A. Williamson of New York died at Jamestown, R. I. General Williamson was a well known and prominent lawyer and came from Kentucky to New York where he established a large practice. During the civil war he was brevetted a brigadier general for conspicuous bravery.

### Confessed Murder.

Paducah, Ky., Sept. 8.—"Spot" Polk, a negro, confessed in the circuit court that he had killed George Gray, a negro, last December. He was sentenced to serve a life term in the pen. He made the confession under promise that he would not be hanged.

The king cultivates Americans. He is interested in the progress of this country.

It is said that Jerry Simpson formerly of Kansas, but now of New Mexico, is going into politics in the territory named and that he will likely be a candidate for congress this fall on the Democratic ticket. Provided New Mexico shall be given statehood, the erstwhile seckless one would aspire to the governorship as an opponent of what is called the Santa Fe ring.

The republicans claim that they turned over nearly \$2,000,000 to the Cuban government upon its taking possession of the island. The receipts from revenues from the time of American occupancy of the island, July 18, 1898 to May 19, 1902, the time the evacuation, were \$57,200,000, and the expenses of running the island, or, in other words, the amount of money the authorities expended is so doing, amounted to \$55,370,000, leaving \$1,830,000 as a starter for the Cuban government.

Senator Morgan, of Alabama, is in favor of the annexation of Cuba. He says "Cuba is as necessary to the United States as Ireland is to Great Britain." An ominous comparison. He believes we should at once take decisive steps to annex. Francis G. Newlands, member of congress from Nevada, also desires to see Cuba annexed. He says "The large number of people in Cuba who favor annexation fear that if it is urged at the present time it would cause a revolution, as people dislike to relinquish their grasp on affairs when the sweets of authority are so new to them."

## ROOSEVELT VS. HIS PARTY.

President Roosevelt is devoting the major portion of his time during his eastern trip to a discussion of the trust question. The president may be both an earnest and so honest man. It is barely possible that he sees the dangers to be feared from the trusts and corporations as they are organized today. His opinions are deserving of respect and consideration. If in his addresses he speaks as one man to another rather than as the mouthpiece of a party to the adherents of that party, his remarks deserve a double consideration. Mr. Roosevelt, however, is not the Republican party. He is only president. So far as the record goes the policies of Mr. Roosevelt are not the policies of his party.

Mr. Roosevelt advocated reciprocity with Cuba.

The Republican majority in congress rejected the reciprocity idea. Mr. Roosevelt declares that he stands for a policy of trust regulation. He advocates publicity as a partial remedy for the dangers that menace the nation.

The president's policy of publicity and trust regulation was rejected by a Republican congress.

The Democrats in the recent congress sought by amending the tax bill to achieve the very ends to the realization of which the president is questionably now bending his efforts.

The Republican majority in congress presented a united front and repealed the tax bill altogether, the result being that today the corporations contribute nothing to the federal treasury and an opportunity for at least a pretense of trust regulation was lost. Even were the president's program for trust regulation all that could be desired, the history of his administration furnishes abundant proof that the president and his party are not advocates of the same policy.

President Roosevelt might be willing to slay the trusts.

The Republican party would not do so.

For the Republican party is the mother of the trusts.

The party should be judged by what it does rather than by what some member pretends that he wishes it to do.

Records count for more than mere declarations.

What is the record?

The Republican party has been in power for over six years and for six years the trusts have grown and flourished as never before.

Within this time the necessities of life have gone up from 20 to 33 percent while wages have not materially increased.

President Roosevelt says "It is deeds, not words, that count." If so, it is by the enactment of laws rather than by the making of speeches the trusts must be regulated.

A policy of trust regulation that does not include a thorough going policy of dismantling the tariff is both insincere and ineffective.

Monopoly is always and everywhere the result of special privilege.

The Republican policy of protection creates monopoly by granting special privileges.

Tariffs raise prices. If they do not, their object is defeated.

When prices are raised the purchasing power of the workingman's dollar is diminished.

The bulwarks of the trusts lie in a protected tariff that grants to them a protection that it does not grant to any other citizen.

Publicity will not curb the trusts.

Speeches will not destroy them.

While a protective tariff lives trusts will thrive.

If President Roosevelt is sincere, if the Republican party is sincere, let them abolish the privilege bestowing tariff.

The president might be willing to do so, but the Republican party could not be relied upon to tear down the defenses of the trusts because the trusts are the chief defenses of the Republican party.—Johnston, Pa. Democrat.

## VICIOUS

Horse Cleans Up with Several Drivers.

The team used to draw the Standard Oil Company's wagon became frightened at the oil house Friday evening and started to run, says the Delphos Herald. The maddened team dashed out of the building and up the steep embankment at the Clover Leaf track near Canal street where the wagon was overturned and the double trees and tongue of the vehicle broken. When the wagon was overturned the horses broke loose from it and continued their mad run to Main street where one of them fell at the corner of Main and Second street and was severely bruised. The other ran north on Main and Fifth where it was stopped.

The wagon was badly broken and about seventy-five gallons of oil lost. A Mr. Coffman of Lima was the driver and had been sent here to replace a regular agent. It is reported that the same team made a desperate effort to run away while at the rear of the H. H. Stallkamps grocery Friday morning but was caught by Mr. Gustafson before any damage was done.

One of the horses is considered a vicious animal and was sent here from North Baltimore last Sunday the driver at that place being unable to manage it. It ran away in that town several weeks ago and broke up property amounting to about \$75.

James I. McCabe says when Maloney married the Widow Clancy Dime Gossip told many a funny story of Dan's merry courtship and the fun provoking complications that led to the famous social event, Maloney's Wedding. The experience was too rich in native humor to remain confined to a limited circle so he concluded to put them in stage form and on tomorrow evening at Paurot's opera house Maloney's Wedding Day will be produced with all of its crisp witty sayings happy humorous hilarity funny complications and many amusing features. It has driven to the elements that make a comedy a comedy and a good wholesome interesting and creator of healthy laughter and creator of healthy laughter.

Life needs all of the dancing sunshine that can pour into it and Maloney's Wedding is one of the foremost of it many merry beams.

for more. Others are said to contribute from 20,000 to 50,000 acres each. What the companies intend to do with these extensive tracts is puzzling the residents of the territory. A recent report states that it is the intention of one company to break the land into small parcels and place southern negroes on them with the object of growing cotton on a large scale. This plan is vigorously opposed by the residents.

**Philippines to Be Represented.**  
New York, Sept. 8.—Governor Taft of Philippine Islands has appointed Dr. William L. Wilson of Philadelphia special commissioner to represent the Philippine government in the preparation of an extensive exhibit which Governor Taft intends shall be made at the St. Louis exposition of 1904. The government of the Philippines will participate in the exposition on a large scale, in order to adequately demonstrate the natural resources of the islands and present to the world evidence of the promised importance of these new possessions.

**War on Disorderly Houses.**  
Kansas City, Mo., Sept. 8.—As the result of a raid on a disorderly resort in Kansas City, Kan., by a dozen churchmen, during which one man was shot and stabbed and another seriously hurt, a bitter war between the churches and the proprietors of disorderly houses has been started. A mass meeting of 5,000 church people was held in the Westington Street Methodist church, at which a fund of \$500 was raised with which to begin a crusade against immoral houses.

**One Man Killed.**  
Broken Bow, Neb., Sept. 8.—Passenger train No. 41, westbound, on the Burlington, ran into the locomotive of an extra freight at the east end of Broken Bow yards, killing a colored man, wrecking both locomotives, and delaying traffic several hours. None of the passengers was hurt.

**Sunk by German Gunboat.**  
Cape Haitien, Haiti, Sept. 8.—The gunboat Cretea-Pierrot, which has been in the service of the Firminist party, has been sunk at the entrance of the harbor of Gonaves by the German gunboat Panther. The crew of the Cretea-Pierrot left her before she went down.

**Trouble in Spain.**

**Owes His Life to a Neighbor's Kindness.**

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. **A Persian Dinner.**

A traveler in Persia thus describes a dinner served in the household of a wealthy Persian: "The chief dish consists of a fowl boiled to rags, surrounded by a toothsome mass of rice, hard-boiled eggs, fried onions, almonds and raisins. There is a Shiraz wine, clear golden red liquid that has traveled over the mountain passes on muleback in a huge glass carboy. Among the dessert manna has a conspicuous place. This delicacy is somewhat akin to nougat; it is studded with walnuts and almonds and is jaw sickening to the last degree. Like the mungo, it is best eaten in private, for it renders the besetator speechless. It is made of gum that exudes from a tree and is said to be engendered by a worm."—Chicago News.

**Knew What to Do With It.**  
A miserly landlord was going round collecting his rents the other day. At one house he was greatly interested in a little girl who watched, open mouthed and open eyed, the business of paying over the money and accepting the receipt.  
He put her on the head and started out to search his pockets, saying, "I must see what I have got for you." After searching his pockets for some time he at last brought from a remote corner a peppermint. As he handed it to the girl he said, "And now what will you do with that?"  
The little girl looked at it, then at him and replied, "Wash it."—London Answers.

**Measles and Ammonia.**  
A Detroit woman who labors among the poor children of the city was telling her experiences.  
"One day there was a death in the neighborhood; a little girl died, and the children were visibly impressed. They told me about it in union.  
"'It was better for her, wasn't it, missus?' one little girl said philosophically.  
"'What was the trouble?' I asked.

## NARROW ESCAPE

### Of Four Young People from Death Under Wheels of an Engine.

**Buggy was Hit and Wrecked by a C. H. & D. Locomotive at the McKibben Street Crossing--Horse Killed.**

Miss Young, son of Alfred Young, of Bath township, Leslie Steinbaugh, of north Jefferson street, Miss Eva Avery, of 719 north Jackson street and Miss Be-si Bell of the Fitzgerald block on north Main street had a thrilling experience and a narrow escape from death or serious injury at the McKibben street and C. H. & D. crossing last night. A buggy in which they were riding was struck and wrecked by a C. H. & D. locomotive and the horse they were driving was so severely injured that it had to be killed while they escaped with only a few slight bruises.

Leslie Young drove to the city with a horse and buggy last night and the other young men and two young ladies mounted and accompanied him to religious services that were held in a church some distance in the country. They were returning home and were crossing the C. H. & D. track on McKibben street when the accident occurred. The engine had been con-

tinued at the C. H. & D. coal dock and was being transferred from the dock track to the round house track. Night hostler William Coffee and his assistant, Mat Frawley were in charge of the engine, the latter being on the rear end of the tank as they backed across McKibben street. The quartette in the buggy did not see the engine until it was almost upon them and all jumped out of the vehicle an instant before the locomotive tank struck the horse and buggy. The buggy was considerably wrecked and the horse was knocked down and the wheels of the tank passed over one of its front legs between the knee and the hoof. The animal was after-ward killed by officer Billstein.

Miss Bell had one of her hands slightly cut and was considerably bruised but her injuries are not considered serious. The other members of the party sustained only slight bruises. No blame for the accident is attached to the men who were in charge of the engine.

## ROCKEFELLER'S MONEY

### Will Assist Him in Making Some Big Changes in the Faurot Block.

John D. Rockefeller, the present owner of the Faurot block has had several of his personal agents in Lima since the big building, raised into the hands of the Standard Oil magnate and among them was an architect, C. C. Clegg, who is supposed to have practically settled the matter of remodeling of the block.

What is supposed to have been the plan of the remodeling of the block, because of the fact that the proposed changes have not been accepted, it is a matter of news to the public that there are to be big changes at all. It is stated by one in a position to know that the big building is to be completely remodeled, and the cost will be in the neighborhood of \$25,000.

One of the greatest departures from the present arrangement is the change of entrance on High street. Instead of the old entrance leading to the second floor, as of the opera house, the new entrance is to be in the block where the millinery store occupied by Miss Kate Callahan now stands.

The new entrance is to be built out

and constructed so as to be approached from the new entrance and this part of the remodeling will result in a number of other changes in the office floors. The main street entrance will also be changed so as to have a more inviting appearance.

Music hall is to be torn out and that part of the building converted into office space. There will be no more music hall because of that conclusion as it leaves the city without a suitable hall for private and public dances or entertainments, but it is apparent that as a money maker, the hall has been a failure. The space it occupies in the building can better be utilized for the purpose now intended.

The purchase of the block by Mr. Rockefeller has placed it in hands back by an unlimited amount of money and it is evident that the new is considered one which will pay well for the amount invested or the transfer would never have been made. The Standard Oil Company is largely interested in the future of Lima and while it has done much for the city up to the present time, it is gratifying to note that there are still other lauded interests being added.

## Blankets for Cool Nights.

There is a sting in these nights that preages the approach of winter. An increase in bed clothing will soon become imperative. You will need some nice, soft, warm blankets. Prices are low enough now to make it worth while to buy NOW, even if you have to lay the blankets aside for a short time. But the predictions are that we will have an early fall—perhaps you won't have to lay them aside at all.

We have a full line of medium and large size blankets in white, gray, tan, mottled and fancy blankets—every one a beauty of the highest quality for the price and the prices range from 45c to \$5.00 the pair.

## Housekeeping Linens at Bargain Prices.

## Munyon's Witch Hazel Soap 7 1-2 Cents.

### The Greatest Sale of the Greatest Soap.

A Soap that is at once a Medicine and a Toilet Luxury.

Health for the Skin now costs you but 7 1-2c.

A Soap that is Pure Enough to Eat.

Professor Munyon is justly proud of his Witch Hazel Soap, and we are proud of being able to offer it to you for 7 1-2c instead of 15c, which is its regular price.

From what people say of Munyon's Witch Hazel Soap, it is creating a great revolution in the toilet line. Think of a soap free from all alkalis and animal fats, think of a soap that is absolutely pure enough to eat, think of a soap that is said to be superior to any French toilet soap ever made. Mothers will be glad to get this soap because it relieves babies so quickly of hives, prickly heat and all skin eruptions.

People who have facial blemishes, black heads and skin eruptions should welcome this new soap as a great blessing. For shampooing it is said to be superior to any article on the market, as it is guaranteed positively to cure dandruff and most scalp diseases.

We believe we are affording the people of this city an opportunity that will be appreciated when we give them such a soap as this for 7 1-2c a cake—exactly half price.
